## ABOUT OZONE EDUCATION

**Ozone Education** is a self-governing institute established in 2008. It also works as a counselling and guidance centre for various Distance education Universities and regular classes. The main aim of Ozone College is to promote Distance education so that every individual gets a chance to get educated and not fall back due to the financial issue, distance and time problem. Distance education and distance learning are one where a student does not have to go to the institute regularly but can complete the course like regular courses by doing all classes, assignments and projects from home or online education. It is a great opportunity for students to study and work and not feel the monetary burden too much.

**Ozone** offer career counseling for Distance education courses and online learning Courses for students so that they can continue with the studies which they had left off due to some reason or the other. Distance education and online courses offered by them can reach a student beyond Geographical boundaries, and also gives them the flexibility to work and study at one time.

**Ozone Education** provides a wide range of career counseling to all its students with a huge variety of education courses available in the fields of Management, Technical, Traditional, Computer, Diploma and certification courses. Over here the counseling is always done keeping in mind the job prospect and the future of the student.
